TANEESHA

MCA STUDENT | ASPIRING IT PROFESSIONAL

9980046951 shettigartaneesha@gmail.com Udupi,Karnataka

ABOUT ME

A motivated and enthusiastic postgraduate student with a strong willingness to learn, explore new technologies, and take on new challenges. Possess a good understanding of programming, problem-solving, and technical concepts through academic learning and project work. Adaptable, responsible, and eager to gain practical experience, develop new skills, and contribute positively in a professional environment. Believe in continuous learning, personal growth, and improving knowledge through new experiences.

PROJECT WORK

Diabetes Detection System

- Developed an academic project focused on assessing diabetes risk using information entered by the user.
- Organized the user input and result flow to make the system straightforward to use.

AirMatrix – HVAC Service Management System

- Built a web-based system for managing AC service requests and bookings for a single HVAC brand.
- Includes service information, booking management, technician details, and administrative features.
- Technologies: HTML, CSS, Bootstrap, JavaScript, PHP, and MySQL.

QuickDoc – Doctor Appointment Booking App

- Developed an academic project focused on assessing diabetes risk using information entered by the user.
- Organized the user input and result flow to make the system straightforward to use.
